

Double Double

Abra Cadabra

(Ay, Ziyech, this one's cold)
No problem, no problem, yeah
Do you love me double double?
And I gon' love you double double
Yeah, yeah, yeah

Tell me that you love me double double
And I gon' love you double double
Baby, do you love me double double?
Baby, tell me, tell me, now
That you love me double double
And I gon' love you double double
Tell me that you love me double double
Baby, tell me, tell me, now

Baby, tell me if you'll let me love you double
Baby, tell me if you'll let me love you double
Baby, tell me that you love me double, double
Baby tell me if you love me, now
Baby, tell me if you'll let me love you double
Baby, tell me if you'll let me love you double
Baby, tell me that you love me double, double
Baby tell me if you love me, now

Hug you like say it be my last time
I could never hurt you like the last night
Can't lie, I been livin' in a fast life
But I can tell you that I'm tired
You be the one I desire
You be the one I require
For you, baby girl, I will play with fire, fire
Show me your love, don't stress
Show me you love me more than the rest
Come with me one time, I'll be your best
I'll be your best, so come in again
Show me your love, don't stress
Show me you love me more than the rest
Come with me one time, I'll be your best
Oh, I'll be your best, oh, come in again, oh, nah

Tell me that you love me double double
And I gon' love you double double
Baby, do you love me double double?
Baby, tell me, tell me, now
That you love me double double
And I gon' love you double double
Tell me that you love me double double
Baby, tell me, tell me, now

I swear you be the only girl my eyes can see
Definitely blind to these gyalz in these streets
They give me mixed emotions
They just wanna smoke light when they're next to me
That's why I feel nice when you're next to me
Girl, I'm feelin' your vibe, you're the best for me
Hold me down, don't lie, I won't lie
I'll never play with your emotions

I just hope I'll never catch you using me
Show me the love I had you choosing me
Show me the love I had you choosing me
Promise to me that you'll be choosing me
I just hope I'll never catch you using me
Show me the love I had you choosing me
Show me the love I had you choosing me
Promise to me that you'll be choosing me, choosin' me, nah

Show me your love, don't stress
Show me you love me more than the rest
Come with me one time, I'll be your best
Oh, I'll be your best, oh, come in again
Show me your love, don't stress
Show me you love me more than the rest
Come with me one time, I'll be your best
Oh, I'll be your best, oh, come in again, oh, nah
Show me that you love me

Tell me that you love me double double
And I gon' love you double double
Baby, do you love me double double?
Baby, tell me, tell me, now
That you love me double double
And I gon' love you double double
Tell me that you love me double double
Baby, tell me, tell me, now

Baby, tell me if you'll let me love you double
Baby, tell me if you'll let me love you double
Baby, tell me that you love me double, double
Baby tell me if you love me, now
Baby, tell me if you'll let me love you double
Baby, tell me if you'll let me love you double
Baby, tell me that you love me double, double
Baby tell me if you love me, now

Show me your love, don't stress
Show me you love me more than the rest
Come with me one time, I'll be your best
Oh, I'll be your best, oh, come in again
Show me your love, don't stress
Show me you love me more than the rest
Come with me one time, I'll be your best
Oh, I'll be your best, oh, come in again, oh, nah
Show me that you love me
