

She gon' do the freaky for a superstar  
I won't tell my friend, I swear, I promise  
She said I know you think I fucked you just cause who you are  
I said I make music so what of it? (what of it)  
She gon' fuck me then goes out on the road  
Miss independent, making money on the low  
And I know she loves it when I grab her by her throat  
Hit it good and catch no feelings when I hit it make her know

I just wanna fuck, nothing serious  
Love's a strong word and I fear it  
But when we fucking, you gon' fuck me with your heart in this  
She said she just wanted dick, period

Just hold this dick you ain't gotta hold my strap  
Ya body good, I won't deal with you like that  
When you calling on my phone and I don't pick up  
Don't call back, I'll call you back  
Put her in the latest drip cause she don't ask me  
Make her do a quick twirl as she walk past me  
When we out she make sure no one looking when she touch me  
She keep it lowkey, that's my homie

Came with my dargs but I'm leaving with her  
Ain't nobody gonna know a thing (ain't nobody gonna know a thing)  
Came with my dargs but I'm leaving with her  
Ain't nobody gonna know a- (ain't nobody gonna know a thing)

I ain't ever gotta change my passcode  
Cause she don't ever want to see what's in my phone  
She said make sure that you strap up when you fuck these hoes, don't think I  
don't know  
She got her house clean  
Only when I'm around  
She likes to [?] candles every time I burn my loud  
She don't trip when she hear me and I say I'm not around  
Imma link you at your house or I'll give you a shout
