

Yeah

(AJ made this)

No problem, no problem

Yeah, yeah, yeah, yeah

I take time with my shorty 'cause she dangerous
I tell her "Keep it calm before you kill the flame in us"
We've been through it and I've always had faith in us
And I don't see nothing that's breaking us
What comes around is ups and downs
You just gotta get up, you just gotta get up, don't let it knock you out
You just gotta keep it pushin' and keep hoping for some better, better, better, better days
Arguments, we just can't keep arguing
This an ugly situation, why you wanna tarnish it?
I put my energy into it, tryna harness it
Why you think I won't tell you no lies? I'm full of honesty
Sometimes you make me feel I hate you, that's just honestly
When I tell you to leave me alone, you're always onto me
I don't know, I start to miss the way you always onto me
Then I realise I feel like this 'cause you're a part of me
And I'll be sad but I won't die if we start parting ways
I know I treated you the best and not the harder way
I ain't treat you like these other bitches, I ain't even phone you when we h
ad nowhere to park the gauge
None of that's for you, for you
You a keeper from the day that I saw you (Yeah)
People see me on the TV from early and think I love attention from these gir
lies

But you know, you know (You know, you know)
I've been around a lot of girls but none of them can move like you (Woah)
We can have our ups and downs, I won't leave you down and out
But you know, you know (You know, you know)
You ain't had another nigga treat you how I do, it's true, ooh
I'm just keeping it real, I'm just keeping it real (No problem, no problem)
You know, you know (You know, you know)
I've been around a lot of girls but none of them can move like you (Woah)
We can have our ups and downs, I won't leave you down and out
But you know, you know (You know, you know)
You ain't had another nigga treat you how I do, it's true, ooh
I'm just keeping it real, I'm just keeping it real

You know I gotta keep it real
I keep it gangster, let her know the real
'Cause I ain't tryna make it be another heart I kill, I'm here for real
You ain't had another nigga keep it trill, be for real
Always being honest, know you seen the drill
She knows I flex, I'm only tryna get a cheque, babe
I tell her "Act correct and don't be doing in my head"
It's just me and her, don't give a shit about her friends
They're bad vibes, they're wishing me and you the end
Said she want some advice, guess she wanna phone up her friend
And every likkle fight, says she wanna phone up her friend
Knew when I'm outside, know she went and phone up her friend
She better phone up her friend when it comes to an end
She knows that me and her can be, don't put your brain on that

Let it be what it will be, don't hold no hate, it's bad
Time will tell and time will see just if you're made for man
I've been around a lot of girls but, girl, I think you're made for man

You know, you know (You know, you know)
I've been around a lot of girls but none of them can move like you (Woah)
We can have our ups and downs, I won't leave you down and out
But you know, you know (You know, you know)
You ain't had another nigga treat you how I do, it's true, ooh
I'm just keeping it real, I'm just keeping it real (No problem, no problem)
You know, you know (You know, you know)
I've been around a lot of girls but none of them can move like you (Woah)
We can have our ups and downs, I won't leave you down and out
But you know, you know (You know, you know)
You ain't had another nigga treat you how I do, it's true, ooh
I'm just keeping it real, I'm just keeping it real
