

## Make It

ABRA

I guess you gave up  
I guess you quit trying me  
Why don't you call  
Did you just forget about little old me  
Did you cut the cord  
Did it take more than you can afford  
Or desire to spend  
Is it all about to end  
Yeah

Show me where it hurts  
I wanna make this work  
I wanna lay my hands on you  
I wanna do this thing for us  
Tell me if it stings  
Its true love I can bring  
To the table  
If I am able  
For you baby

I know that they say nothing lasts forever  
But baby we got something here  
We got something here  
Wouldn't you say  
Didn't you hear  
Or do you really think the trail has gone cold  
Do you really think we're too far from home  
No I don't think so  
I don't think so

Well show me where it hurts  
I wanna make this work  
I wanna lay my hands on you  
I wanna do this thing for us  
Tell me if it stings  
Its true love I can bring  
To the table  
If I am able  
For you baby

I get so attached it's my bad  
I can't let go  
Of your beautiful soul
