ABRA

Hey mister rain man  
Come rain down on me  
Let me tell you what I been through these days  
What I been through these days  
Hey mister man come  
Come stand by me  
I got something on my chest  
Let me tell you what I been through these days  
What I been through these days

I just want some affection  
I just need your attention

We don't gotta be in love I just need somebody  
Need need somebody right now

We don't gotta be in love I just need somebody  
Need need somebody right now

We don't gotta be in love I just need somebody  
Need need somebody right now

We don't gotta be in love I just need somebody  
Need need somebody right now

All that straight talk clears the room  
Why you gotta be like that  
I'm not so bad, you're not that good baby  
Do you wanna party  
We don't gotta make it heavy  
Just be ready for a good time  
I'm a wild thing are you down with it  
We don't gotta make things weird and shit  
I just wanna spend tonight with you  
I'm a wild thing are you down with it  
We don't gotta make things weird and shit

Cause I just want some affection  
I just need your attention

We don't gotta be in love I just need somebody  
Need need somebody right now

We don't gotta be in love I just need somebody  
Need need somebody right now

We don't gotta be in love I just need somebody  
Need need somebody right now

We don't gotta be in love I just need somebody  
Need need somebody right now
