ABRA

Yeah, yeah, yeah, yeah, yeah, yeah, mm  
Yeah, yeah, yeah, yeah, yeah, mm  
Yeah, yeah, yeah, yeah, yeah, mm  
Yeah, yeah, yeah

Years ago, you evaporated from an overdose  
I'm the dope, now I hear you strung out and you want some more  
That's a no, you know I don't fuck with ghosts  
You know I already exercised you out so call the [?]  
Call the [?]

Call the other bitch that you knew so well  
Funny how I knew you even better than you knew yourself  
That's some shit  
Wonder why I never put my tongue on it  
Wonder why I never hit the blunt when you put bud in it  
Let you know

Now it's coming clear, you see  
I know you love games and you not 'bout to play me  
I know that my name keeps you up late and crazy  
Just throw it all away like you ain't ever met me  
Now I see you starting to see things clearly  
I know you love games and you not 'bout to play me  
I know that my name keeps you up late and crazy  
Just throw it all away like you ain't ever met me, yeah

Never met me  
You never met me

Take what you said back  
Take what you said back

You never met me

Take what you said back  
Know that you ain't meant that  
Feel it in my gut  
Now I need a six pack  
I was on that late grind  
You thought it was playtime  
Why you tryna act like you make time  
You think it a bomb  
You think I was wrong  
You think I was on drugs  
Shit, maybe I was, but I'm awesome  
Now I lost my baby, you're an orphan  
You like me when I'm nailing it and it is in a coffin

Call the other bitch that you knew so well  
Funny how I knew you even better than you knew yourself  
That's some shit  
Wonder why I never put my tongue on it  
Wonder why I never hit the blunt when you put bud in it  
Let you know

Now it's coming clear, you see

I know you love games and you not 'bout to play me  
I know that my name keeps you up late and crazy

Never met me  
You never met me  
You never met me  
Yeah, mm
