

Endless Summer

Absofacto

Pouring all the lost boys another
Never go to sleep ever, that's for sure
Well I forgot to
Sliding down the curve of the corkscrew
Catch you on a warm night, well don't you
Wanna see the sun swallow up the world

Watch it all unfold
Every scene
Get lost inside an endless summer
Endless summer dream
And it don't get old
We can scream
'Cause we know how long the night is gonna be
Endless summer
Endless summer

Laughing like a pack of coyotes
Mad times crossing property lines
Hollywood signs
Why? 'Cause I just want to
Crash another pool full of strangers
Find a girl who thrives on the danger
Come and watch the sun swallow up the world

Watch it all unfold
Every scene
Get lost inside an endless summer
Endless summer dream
And it don't get old
We can scream
'Cause we know how long the night is gonna be
Endless summer
Endless summer

Watch it all unfold
Every scene
Get lost inside an endless summer
Endless summer dream
And it don't get old
We can scream
'Cause we know how long the night is gonna be
Endless summer

Watch it all unfold
Every scene
Get lost inside an endless summer
Endless summer dream
And it don't get old
We can scream
'Cause we know how long the night is gonna be
Endless summer
Endless summer
Endless summer
Endless summer
