

Light Outside

Absofacto

My love with a broken GPS
Don't stop you were always such a mess
So many stars but they lead you so astray
Are you caught up in some place
Are you bound to get away

I leave a light outside
And I hope that you know
You never gotta hide
Like a deadthorn fades out into then night

So baby come on home
Where you know
That the tick-tock of my heart
Is beating right on time
Never fast
Never slow

You lied, but I always know the truth
We fight, but I can't stay made at you
Got zero bars, so the message won't beam down
Take a cab, don't be too proud
I don't care, just come around

I leave a light outside
And I hope that you know
You never gotta hide
Like a deadthorn fades out into then night

So baby come on home
Where you know
That the tick-tock of my heart
Is beating right on time
Never fast
Never slow

Always out on your own
We're playing a game of phone tag all the time
Forgot your key in the door
You got me waging a war deep in my mind

(Uh oh)
You break when you cross the line
(Uh oh)
You sayin' I'm a stubborn guy
(Uh oh)
Don't want to give it up tonight

I leave a light outside
And I hope that you know
You never gotta hide
Like a deadthorn fades out into then night

So baby come on home (come on home)
Where you know
That the tick-tock of my heart
Is beating right on time

Never fast
Never slow
