Python

Absofacto

Green eyes, took some shit I've never seen
Outline, fill them in a different color
Nylon, peel it back and let it breathe
Python, tangled up around each other

(I, I wanna hold you tight
I wanna hold you)
I want you to know
(I wanna hold you tight)
Tangled up around each other
(I, I wanna hold you tight
I wanna hold you)
I want you to know, I
(I wanna hold you tight)
Tangled up around each other

(I, I wanna hold you tight
I wanna hold you)
I want you to know
(I wanna hold you tight)
Tangled up around each other
(I, I wanna hold you tight
I wanna hold you)
I want you to know, I
(I wanna hold you tight)
Tangled up around each other

Slow dance, song you've never heard before
Chopin, wrap one arm around the other
Nylon, last night's skin across the floor
Python, tangled up around each other

(I, I wanna hold you tight
I wanna hold you)
I want you to know
(I wanna hold you tight)
Tangled up around each other
(I, I wanna hold you tight
I wanna hold you)
I want you to know, I
(I wanna hold you tight)
Tangled up around each other

(I, I wanna hold you tight
I wanna hold you)
I want you to know
(I wanna hold you tight)
Tangled up around each other
(I, I wanna hold you tight
I wanna hold you)
I want you to know, I
(I wanna hold you tight)
Tangled up around each other
