

2 Far 2 Fast

Abstract

What do you say when all the lies run out?
I don't believe a thing I say to me
Where do you go when you're done hiding out?
I can't believe in make-believe anymore
Sick and tired of being sick and tired
I need a break from this
Break me down or break me off
But please don't make me wait for it
How could you be so cruel
When I'm giving all my energy to you?
I got the pedal to the metal
It's hard to let go 'cause your lovin' on another level

Calling out for you
I pour one out for you
Put in overtime
Stuck in overdrive

I hope you know when you're low on fuel and out of gas
I got you
Just don't go too far too fast (Ooh, ooh)
Just don't go too far too fast
Too far too fast (Ooh, ooh)
We're not built to last if we go too far too fast

Feel like I was livin' in fast forward
Ain't smell roses all my life
When you're tryna live dream like this
Ain't no pullovers, no red lights
Drop the needle, gears shift like Baby
Drivers seat till it drove me crazy
So can we go slow? Ain't a love I've known
But it's what we're needin' maybe
My heart been through hell
My trust I've withheld
I still don't understand how you can love me so well (Yeah)
Can't believe it
Used to lose sleep over people that I know I never needed
Can't believe it
So this time I don't wanna go too far too fast

Calling out for you
I pour one out for you
Put in overtime
Stuck in overdrive

I hope you know when you're low on fuel and out of gas
I got you
Just don't go too far too fast (Ooh, ooh)
Just don't go too far too fast
Too far too fast (Ooh, ooh)
We're not built to last if we go too far too fast (Ooh, ooh)
Just don't go too far too fast
Too far too fast (Ooh, ooh)
We're not built to last if we go too far too fast
