

Shawty want a love like the movies (Uh)
Guess that's why I want someone to shoot me (Do it)
When it come to love like this (Yeah)
Funky don't feel so groovy (Nah)
Baby, why you gotta play the villain like that? (Hey)
Curious about it, tryna kill that cat (Hey)
Eight left in you if it's ate like that
Seven if you want to go and play the game like that
Six in the morning, I could run it right back
Five, I'll be rising with the sun, just ask
For you, I would hit the three, no pass
To you, I would be the one, no act
Scene's getting heavy but we wrote it like that (Yeah)
Kick it but you flip to a protagonist fast (Yeah)
Red flags, sorry, but I love it like that
How you gonna throw stones when your heart's so glass?

Every other song I hear reminds me of ya
When you cause a scene, it gets me playin' my part
I wake up and I wonder how you undiscovered
Maybe we should show 'em so they know who you are

You should be my little co-star
I want all the action, babe, you know what it is
You should be my little co-star
I'll stick to you and the script

Shawty wanna shoot but she hate the cameras
Tryna drown in it like her land's Atlantis
Lost and found in it like a storm in Kansas
Lyin' like a scarecrow tryna dodge the damage
(Why you do me like?) Wizard of the odd
Stay behind the curtain while she tell you she a God
Nothing's ever certain, you get twisted as a knob
She project on ya any problem she don't wanna solve (Oh yeah)
What's real in a land made of make-believe?
Misdirect in every step; no, it ain't fair to me
Gaslight like we alright, next scene whole different mood in the trap that y
ou set me (Damn)
Wicked witch of the west with the traps she sets
She keep changing the game so I'm never correct
Manufacture the pain until nothing is left
Call cut cause the movie a tragedy, yup!
