## Abstract

I used to say what I wanted to hear  
Now I look back and see how I got here  
Without the sugar-coated raw emotion coasting on a hope  
It's clear became the dopest from the coldest place you fear  
A drop in my ocean  
But that drop became a wave  
And that wave became and storm  
That storm became my hurricane  
Now I'm coursing through the states  
To overseas, they know the name  
But ever since that ship failed  
I never been the same  
All cause you chose popularity  
I'm popular as fuck  
You'll probably say "get over it" but damn I hold a grudge  
I ain't perfect not at all  
But I was someone you could call  
Loyal as loyal gets  
In these days I'm not at all  
What I used to be  
Cause what I used to be didn't work  
Now every girl I went out  
Never seems to work  
The best way to do it  
Was the way that I got hurt  
I know I made mistakes, but hope life shows you what I'm worth

Our candle burns away  
The ashes full of lies  
I gave my soul to you  
You cut me from behind  
Nowhere to run and nowhere to hide  
You're scared of the truth, I'm tired of the lies  
Cuz who I am, is where you wanna be

I was: Young, dumb, protective  
But I always meant the best  
Had a heart a couple sizes  
Maybe too big for my chest  
And you, you had the same  
'til that shit became compressed  
While mine shrunk within' depression  
You said "hope you learned your lesson"  
Lesson that consisted of: Fuck communication, and attention  
I could make a huge jab, but I'll spare it the mention  
All in all I'm over it  
But being back brings back some memories  
Feels good to see my friends  
But damn, it brings back enemies  
Wasn't really treated with respect growing up  
But now I got the voice so excuse me when I stunt  
Used to be so blind but now look back and know what's up  
Pretty fucked up that back then weren't many I could trust  
It's Karma that I'm here  
See it all comes around  
Cause now they say "what's up?"  
When I roll through town

They used to laugh at my dreams  
Homie who laughs now?  
And It's only the beginning  
Wait 'til I cash out

You said you were there for me  
You wouldn't let me fall  
All the times I shared with you  
Were you even there at all?  
Nowhere to run and no where to hide  
You're scared of the truth, I'm tired of the lies  
Cause who I am, is where you wanna be
