

# Die A Legend

## Abstract

Yeah, we're just tryna die some legends  
If they ain't with us then forget 'em  
Yeah, we're just tryna die some legends  
If they ain't with us then forget 'em  
So put your hands up  
Throw them A's in the air if you had enough  
If you just kept goin' when the road was rough  
Now the work that you puttin' in had enough, yeah  
Yeah, we're just tryna die some legends  
If they ain't with us then forget 'em

Live a life, grind mine nine-to-five  
To everybody doin' that, I be askin' why  
We be lookin' for the "lights, camera, actions"  
Steady workin' when I write, typin' with a passion  
Ace of the deck, ain't nobody here can match him  
Rise in the game, turn stars into has-beens  
Just workin' to die a legend  
When they classify the greats, gotta get my name mentioned  
Yeah, that's how it's gon' be  
Make hits all year, they make tracks all week  
Confidence worth mills, and the notes sound me  
Could do hundred on the fan base just last week  
Girls all down 'cause they see that I'm headed up  
What a crazy feel, knowin' and not gettin' love  
When they take shots at me, put 'em in my cup  
Then I'll take it to my success, fill it up  
I wanna step through the Walk of Fames  
Stop for a second just to show my momma name  
Show 'em that it all was worth it  
Makin' the future instead of time gettin' purchased  
In a classroom, waitin' on life  
But I ain't waitin' for nothin', don't know what that's like  
I want 'em thinkin' I was Lennon in the past life  
How I'm thinkin' me and Faro was my past wife  
Year '93 took forever  
Show me what you got, I'll show you that I do it better  
And tryna be your average Joe  
They'd be lyin' if they said I had an average flow  
Only gettin' with the times, lettin' averages go  
Say I'm dope when you touchin' me, cases is closed  
Can't be here much long, gotta get on the road  
Spittin' fire on the world, that's a heavenly cold

Yeah, we're just tryna die some legends  
If they ain't with us then forget 'em  
Yeah, we're just tryna die some legends  
If they ain't with us then forget 'em  
So put your hands up  
Throw them A's in the air if you had enough  
If you just kept goin' when the road was rough  
Now the work that you puttin' in had enough, yeah  
Yeah, we're just tryna die some legends  
If they ain't with us then forget 'em

It's a new day, they live the wrong way  
Dependant on another just to get they own pay

I look in the mirror, sayin', "Do what I say"  
Everything I do these days, I do it my way  
Kids questionin', askin', "Can I be my own boss?"  
Yeah, son, society's got you brainwashed  
Who are they to tell you that you can't lead?  
Sittin' in a classroom trained to be sheep  
Can't take it and I know I gotta leave  
Born, no one suited it, I have to live my dream  
Supreme to be a legend in the rappin'  
Only thing I hope is I'm alive when it happens  
Whoever's got the torch better get ready to pass it  
Realest to the death, till then I'll be goin' ham  
Only time I'll be fake is at the hologram  
Gotta do what I gotta do, understand?

Yeah, we're just tryna die some legends  
If they ain't with us then forget 'em  
Yeah, we're just tryna die some legends  
If they ain't with us then forget 'em  
So put your hands up  
Throw them A's in the air if you had enough  
If you just kept goin' when the road was rough  
Now the work that you puttin' in had enough, yeah  
Yeah, we're just tryna die some legends  
If they ain't with us then forget 'em
