

For You

Abstract

I can feel my heart giving love
But you gave it back
But you gave it back
I don't wanna start something new
Can't be crawlin' back
Won't catch me crawlin' back

No use in picking these pieces up
I know I'll only be hurting myself (Hurting myself)
(Hurting myself, hurting myself)
Hurt people hurt people; I know you're gone
Found a new one; can't believe that you are already plotting
On how to hurt somebody else (Somebody else)

She said, "What you gonna do for me?"
I said, "Look at what I do for you"
Tried to give it all I could, that's somethin' you never would
Always knew I loved you way more than I should
She said, "What you gonna do for me?"
I said, "Look at what I do for you"
Tried to give it all I could, that's somethin' you never would (Would)
Always knew I loved you way more than I should (More than I should)

Hated who you were becomin'
Is who I knew gone? Show me somethin'
How could you treat us like nothin'?
I know you always been runnin'

But you didn't need to run from love
Somethin' that you'd never known, because
Every time somebody let you down
There's not too many who stayed around
I was tryna be the one—and you know I was
I was in it 'til the death, you a goddamn drug
But you didn't need to run from me
So many things that I can't believe
Leaving my house like a murder scene
You get to run while I'm left to bleed
I was tryna be the one—and you know I was
You were in it for yourself, I was in it for us

She said, "What you gonna do for me?"
I said, "Look at what I do for you"
All I do, it was never enough for you
She said, "What you gonna do for me?"
I said, "Look at what I do for you"
All I do, it was never enough for you (Yeah, yeah, yeah)

She said, "What you gonna do for me?" (She said, "What you gonna do?")
I said, "Look at what I do for you" (I said, "Look at what I do")
Tried to give it all I could (Yeah), that's somethin' you never would (Yeah)
Always knew I loved you way more than I should
She said, "What you gonna do for me?" (I said, "What's you gonna do for me?"
)
I said, "Look at what I do for you" (Do for you)
Tried to give it all I could, that's somethin' you never would (For you)
Always knew I loved you way more than I should (More than I should)
