Goldmine

Abstract

Let's go!
Goldmine
Okay, okay, okay, okay, let's go
Goldmine

Never thought I'd know it
That love from movie screens
Would exist like a myth in a scene I only see in dreams
Heard the stories alright, 'bout a treasure few have known
Said take your time tryna find that light
In time, you'll find that gold
Prospect with a sift through
Couple time's a fool (Yeah)
'Til I learned to see the difference in this sayin' though

Everything that glitters ain't gold
But it led me right to your soul
And now I never let go, oh-oh, oh-oh

I stayed wishin' on every star
That I would find somebody who loved my scars
I waded through those waters to sift through gold
With my hands rubbed raw and my heart gone cold

I found a goldmine
Waited a long time to get to you
Flatline, that was my baseline before I knew
Most lied, all of the pyrite, I was a fool
Happy now that I'm diggin' you
Ooh, I found a goldmine
Waited a long time to get to you
Flatline, that was my baseline before I knew
Most lied, all of the pyrite, I was a fool
Happy now that I'm diggin' you
Ooh I found a—

Diamond in the rough
I mean roughest part of my life
Crazy how my vision's 20/20 with the hindsight
2020 felt like I was livin' at my lowest
No more hope for hopeless
I was far from savin', I was broken
'Til you walked into my life
Caught a shine like a deer in the headlights
Never knew that a love could be so right
Had to wait too long but it's alright, I know

Everything that glitters ain't gold
But it led me right to your soul
And now I never let go, oh-oh, oh-oh

I stayed wishin' on every star
That I would find somebody who loved my scars
I waded through those waters to sift through gold
With my hands rubbed raw and my heart gone cold

I found a goldmine

Waited a long time to get to you
Flatline, that was my baseline before I knew
Most lied, all of the pyrite, I was a fool
Happy now that I'm diggin' you
Ooh, I found a goldmine
Waited a long time to get to you
Flatline, that was my baseline before I knew
Most lied, all of the pyrite, I was a fool
