

# I'll Come Around

## Abstract

Haven't felt like this, in while or so  
I'm about to go for broke  
So I didn't know for me  
And recently, to feel like this, you see  
When I'm around you I ain't got air to breath  
Heads in the clouds trynna get my mouth to move  
Thinking what I gotta do  
Just to be what's on your mind  
I swear I'm a different kind of guy  
And you a different kind of fine  
You're the type that's hard to find  
The kind I ain't just trynna spend a night with  
But if you wanna You know we can do it how you like it  
Late night: Alcohol  
Might get text sent  
Don't trip if my message is looking dyslexic

You know you a angel  
Trynna hang around you like a halo  
If it's cool with you just say so  
Been a player I ain't trying to play games though  
We can run this town  
We can run this world  
Only wanna know if you'll be my girl  
Unstoppable, that's how it go  
Just like me when I hit that floor  
Know I'm all about shine and you got the glow  
We can shine together  
Through stormy weather  
Girl, you be done good, I can do you better  
On and on and I won't say forever  
A scary combination of letters  
But could we give it a shot?  
Is you ready to rock?  
If you need a little time I'll be sitting by the block

I'll come around if you ever wanna be in love  
I'm not feeling  
But I'm feeling it on the Earth  
If you ever wanna be in love  
I'll come around  
You know I'll come around  
Yeah, you know I'll come around

I know you got my number  
I'll be here all summer  
We can try this now  
But we'll always wonder  
What could've been  
How each other feels on each others skin  
Sorry I be getting intimate but if the topic's you I get in to it  
Girl I'm interested if you couldn't tell  
Your beautiful like no one else  
I be an open book don't put me on the shelf  
When I know you like you know yourself  
As a Freshman can't believe you talk to me  
Shy as Hell wasn't even seventeen

But that memory still sticks with me  
You still the gorgeous girl Where I wanna be

You know you a angel  
Trynna hang around you like a halo  
If it's cool with you just say so  
Been a player I ain't trynna play games though  
We can run this town We can run this world  
Only wanna know if you'll be my girl  
Unstoppable, that's how it go  
Just like me when I hit that floor  
Know I'm all about that shine and you got the glow  
We can shine together  
Through stormy weather  
Girl, you be done good, I can do you better  
On and on and I won't say forever  
A scary combination of letters  
But could we give it a shot?  
Is you ready to rock?  
If you need a little time I'll be sitting by the block

I'll come around  
If you ever wanna be in love  
I'm not feeling  
But I'm feeling it on the Earth  
If you ever wanna be in love I'll come around
