

Keep Up

Abstract

We grew up throwin' up Ws
Back when Tech was that "I'm 'bout ta' bubble" dude
Used to match all my fitteds with all my shoes
Had my tees triple-X like 2002
Known for smoking that diesel with rowdy crews
Treat the hill like some skaters, we breakin' rules
Drip was cold as the weather, a pleasure to stunt on the [?]
Circle swerve on a square, leave a lame in the ditch
Came from the sticks and we stay with 'em too
Edges serrated, a little detuned
Beverage of 40 with E on a loop
Playlist consisted of Weezy and Wu
Mobbin' like militants, out with the villages
Villianous presence denied local visitors
Simpletons had to be put in their place
Left in the dust if not matching the paint

Huh? Keep up
They could never ever be us (What?)
Huh? Keep up
You got a problem, better speak up (Yeah, yeah)
Huh? Keep up
We runnin' and runnin' and runnin' it up (Runnin' it)
Huh? Just keep up
Got me chillin' with my feet up (Yeah)

An armada of lines
Bomb hole I'm leaving atomic at times
Been at the forefront, I'm vocal with mind
Stunt like the Viper in 1995
Been touchin' gold like I'm Tanner in six
07 know 8 whatever you wish
Breakin' some ankles when I hit the switch
Stay hoppin' genres, I pretzeled the bridge
Let me get [?] with you
Most don't impress me, here's a E for the effort
Look around what do I see in the wreck
It's not me so I had to represent for the [?]
Mountain-made monster, doin' what I want to
Killin' everything, need a mortuary sponsor
Headphones blarin' like they did back then
Difference is nowadays I be holdin' the pen
