LA Vibes

Abstract

These skylines and painted skies
Stay up all night
I'm lost inside
These LA vibes
It's paradise, where life's on high
I'm lost inside
These LA vibes
These skylines and painted skies
Stay up all night
I'm lost inside
These LA vibes
It's paradise, where life's on high
I'm lost inside
These LA vibes

These LA vibes

Telling me I woke up in the city of dreams
Swear it feel like the city of "get it by any means"
Looking off of my balcony, got a bit of the alc in me
Got a beat and my alchemy
Midas touch make it golden
Passion got me going
Drive like it was stolen
Vision make it hard for me to live in the moment
But I see the sun setting while the waves crash down
Got me living for a second right here right now
Then the stars come out and the city shakes up
And the lights so bright feel like we just woke up
And the drinks start flowing and the crews all here
Future feeling brighter than the streets 'round here
Cruising through the same roads where my idols live
I remember dreaming of a life like this
House in the hills for a week type bliss
This is what happens when you give money to grown-up kids

You know we just living life how we want to
And we gon' live it up 'cause we never got to
If you need a little light, swear the Cali sun got you
Swear I'm way too high off of LA vibes
Raise a glass to the life that we living one time

These skylines and painted skies
