

# Lean On Me

## Abstract

I'm comin' home again  
You were my only friend  
And landed a shoulder when I needed one the most  
So lean on me (Lean on me)  
I'll be by your side any time you need it  
Lean on me  
So lean on me

Yeah, what is fate when you think you're writing your legacy?  
I guess it's easy to pick and choose through the recipe  
Got a question for anybody who testin' me  
Were you the friction I needed to burn with enough to grease  
To light the fire required to light the way?  
Now I'm glowin', light in the ocean for those fightin' the waves  
All the days that I was broken, the days I learned to change  
Nights where I was hopeless, growth was the silver lining at play  
Yes, I'm the leader they wanna see in the booth  
But I get to be myself in the moments I share with you  
Crystal clear to me that no distance could come between  
Say the word, I'm on the way if I'm the one that you need

You know we been through the fire but we always found our way on through (On  
through, on through)  
And when times get hard, I'll be right here waiting for you

I'm comin' home again  
You were my only friend  
And landed a shoulder when I needed one the most  
So lean on me (Lean on me)  
I'll be by your side any time you need it  
Lean on me  
So lean on me

(Ooh) I'll be by your side any time you need it  
(Ooh) So lean on me

We all think to be the one that we must go alone  
As I get older, found the path is not so set in stone  
The strongest people keep the strongest people in their life  
To hold the weight when we aren't strong enough to fight the fight  
Lean on me when the world denies you what you deserve (Yeah)  
Lean on me when judgemental eyes can't see your worth (Yeah)  
Lean on me when nothing's certain except for this  
I'll be there to remind you of what it really is

You know we been through the fire but we always found our way on through (On  
through, on through)  
And when times get hard, I'll be right here waiting for you

I'm comin' home again  
You were my only friend  
And landed a shoulder when I needed one the most  
So lean on me (Lean on me)  
I'll be by your side any time you need it  
Lean on me  
So lean on me

(Ooh) I'll be by your side any time you need it  
(Ooh) So lean on me  
(Ooh) I'll be by your side any time you need it  
(Ooh) So lean on me

Ooh, please feel free  
Ooh, to lean on me
