

Legends Never Die

Abstract

Yeah!

Never met a you like I
Never met a mind like mine
You a real [?], we the truth (Truth)
I'm about to be the living proof (Proof)
Legends never die (Legends never)
Tell 'em I'll be fine (Tell 'em I'll be)
Legends never die (Legends never)
Tell me, why would I? (Tell me, why would)
Legends never die
You cannot take my pride
Legends never die
You cannot shade my shine

Soon as the dust settle, I smash metal
Pedal hittin' the floor, I'm 'bout to jump levels
I've been ready for war, I was a born rebel
Better than ever before I got the score settled
World wreck in a [?]
My hands stretchin' farther than you get
And you come second to my message
Fine with it, a flight risk, I might just
Let a verse fly and turn the game to a crisis
Way too potent—thanks, glad you noticed
Throw bars like I just bust the cells open
Grind hard is copin', that's how I cope with
Folks that don't know I can leave careers broken
Heart been so frozen, mob went in motion
Toasts to those toasted, smoke when they quote this
To keep it formal, I'm far from normal
Man-made but what I've made far from mortal

Never met a you like I
Never met a mind like mine
You a real [?], we the truth (Truth)
I'm about to be the living proof (Proof)
Legends never die (Legends never)
Tell 'em I'll be fine (Tell 'em I'll be)
Legends never die (Legends never)
Tell me, why would I? (Tell me, why would)
Legends never die
You cannot take my pride
Legends never die
You cannot shade my shine

I reckon I'ma finish what I started
But I'll never be departin' if you wanna get technical
Forever is a timeframe relevant to my name
You can check the records if you skeptical
And I've been on a cold pursuit to never be number two (Be number two)
And really I ain't really in the mood
There ain't nothin' left to prove, let's go (Nothin' left to prove)
Ignite the fire in my eyes (Eyes)
Gave you time to pick sides (Sides)
Stack the chips as I rise (Rise)
Throw stones but a bone can pitch mine

Bombastic, flow could melt plastic
Known to switch modes from folks [?]
Product of my madness, most will end damaged
The world ain't enough, that's just how I planned it

Never met a you like I
Never met a mind like mine
You a real [?], we the truth (Truth)
I'm about to be the living proof (Proof)
Legends never die (Legends never)
Tell 'em I'll be fine (Tell 'em I'll be)
Legends never die (Legends never)
Tell me, why would I? (Tell me, why would)
Legends never die
You cannot take my pride
Legends never die
You cannot shade my shine
