Abstract

You gon' sit repeat that same hit song
Upbeat and careless like there ain't shit wrong
Like there ain't lives lost, like there ain't lines crossed
Pray for change, not taking action while you grip that cross

Ay, maybe everybody need
Maybe everybody need
Maybe everybody need
A little prayer right now
Maybe everybody need (maybe everybody need)
Maybe everybody need (maybe everybody)
Maybe everybody need (maybe everybody need)
A little drink to zone out
Maybe everybody need (maybe everybody)
Maybe everybody need (maybe everybody need)
Maybe everybody need
To turn up the dial, leave the world for a while
Maybe everybody need (maybe everybody need)
Maybe everybody need
That hit song, that cross, that drink
That escape from a world on the brink
Focus on where we're inspired and motions that take our hearts higher
Focus on all our desires, those who can ignite our fires
So I'll talk about her (talk about her)
Who sets my heart ablaze (sets my heart ablaze)
Pulls me out of the darkness (pulls me out of the darkness)
And brightens my day
And though we yet to meet, feel she make me complete
Been quite a while since I have felt whole, since I have felt whole

'Cause she's so cool
Got a heart from the 70's
And she's no fool
Mind's twenty-first century
And all I need is a couple minutes, baby
To make you see the way you drive me crazy

When it come to dime, she can loan to your kind
Makin' this your man, I'm talkin' hardest to find
All on my mind like a fitted cap
She's so different description, kinda hart to fit in raps
Slim waist ass, like how you fit in that?
Mind, like how you think of that?
Mine, like what you think of that?
We could travel the world or stay where we're were layin' at
Sonny and Chad, Bonnie and Clyde
Can tour overseas if you down for the ride
'Cause we'll get there if you're there
Been let down too many times, you a breath of fresh air
'Cause you just want the dot to order
Said to take you every day
Ain't a hard pill to swallow, girl, I'll take you every way
No makeup, straight up beautiful, I'm left to what you say
So whatcha think of me and you?
Through nothin' together we couldn't do
'Cause what's a Jay without his Beyonce?
But we ain't gotta name our daughter Blue

When the time 'bouta feel a five to go on without you
I know you're old love got you hurt but it's too brand new
Let me know if you down to, you know I want to

'Cause she's so cool
Got a heart from the 70's
And she's no fool
Mind's twenty-first century
And all I need is a couple minutes, baby
To make you see the way you drive me crazy
