

My Mission

Abstract

Heartbreak, heartbreak hit him like a earthquake
I ain't never seen it but I felt my whole world shake
Livin' on the edge of the destruction that your world's made
Runnin' on the treadmill of a path that good girls made
Now headed up to the top
Till we ridin' with the top down, this studio surround sound
'Cause lately who surrounds in and out of who they talkin' 'bout
They say they see potential, I'm just tryna find my true amount
Used to feel I had something to prove
Used to feel I had something to lose
Now we all in, got the world on the move
Finally feelin' like I'm doin' what I set out to do
And that's understandin' my own self
And I guess I helped others while I helped myself
Message in my inbox reads, "I felt how you felt"
Another victory that I can't add up on my shelf

Finally feeling amazing
Telling on the shadows I've been chasin'
Darkness came, have a light to face it
'Cause you ain't gotta fight them to embrace it

We livin', livin', we livin' for right now
Ain't a power in the world that could make us back down
Livin', livin', we livin' for right now
Ain't a power in the world that could make us back down
Don't you get it? We gettin' it right now
Feelin' so high, nothin' ever bringin' us down
Get it, get it; we gettin' it right now
Feelin' so high, nothin' ever bringin' us down

They thought I was counterfeit, didn't know the half of it
Truth is, kept a couple things from even my conglomerate
Smile on my face but the pace was feelin' opposite
Mind behind my eyes even darker than the darkness get
Spendin' too much time behind the mind as deep as I
Makes it hard to find the lights that grace the other side
So we grab a pen and pad in case we don't survive
Bring the light to every lie, we travel with a lab
'Cause, to be honest, we all wanna be remembered
We ain't gonna, but what we do could live forever
All I see is mostly tryna be better MCs
Lately, I've been tryna just to be a better me
If my music helps someone with mendin' their heart
And if my message helps someone accel in their art
If my life got somebody out of the dark
If it ain't my whole mission, it's a hell of a start

Finally feeling amazing
Telling on the shadows I've been chasin'
Darkness came, have a light to face it
'Cause you ain't gotta fight them to embrace it

We livin', livin', we livin' for right now
Ain't a power in the world that could make us back down
Livin', livin', we livin' for right now
Ain't a power in the world that could make us back down

Don't you get it? We gettin' it right now
Feelin' so high, nothin' ever bringin' us down
Get it, get it; we gettin' it right now
Feelin' so high, nothin' ever bringin' us down
