

Only Be Me

Abstract

N-n-n-Noah

'Cause when the beat stop playin' and
People start sayin' that I ain't what I used to be
I'll tell them that I, I can only be me
I'll tell them that I (Yeah), I can only be me
And when the words stop flowin' and it's hard to keep goin' (Yeah)
Because all of my drive's on E
Just know I won't stop
As long as they watchin' me
Just know I won't stop
As long as they watchin' me

I came up shaken to my core about what the world could be
But don't we all while viewin' cracks within the fantasy?
All the fairytales, the blueprint that we're meant to follow
Promises that ultimately lead to somethin' hollow
I took my fate into my hands to cope through every note
Becomin' bigger than myself with every word I wrote
If they leave at the expense of me just bein' me
Weren't really with me from the get-go, hit the exit please

'Cause when the beat stop playin' and
People start sayin' that I ain't what I used to be
I'll tell them that I, I can only be me
I'll tell them that I (Yeah), I can only be me
And when the words stop flowin' and it's hard to keep goin' (Yeah)
Because all of my drive's on E
Just know I won't stop
As long as they watchin' me
Just know I won't stop
As long as they watchin' me

Honestly, I don't really think we changed much
Feelin' like the world changed, but did it change us?
Still the one to rip my heart apart all for the art
The nitty gritty, most would light it dimly while we spark
I like to hold up to the harder parts of bein' human
Illuminate on how the hurdles taught me better movement
Lotta losin' taught me value, every single win
You can't purchase havin' purpose
Blessed to live the way I live

All I know is (All that I know)
Is that I, I can only be me
Yeah I (Yeah), I can only be me
This is my show (Yeah, this is my)
Because I, I know they watchin' me
Yeah, I (Yeah), I know they watchin' me
