

# Pressure

## Abstract

They don't know the half of it  
Stuck on all my past struggles  
Tryna move the needle, let the record play  
Don't treat me like a crash dummy  
Lights are flashin' fast, let me signal  
Lay me down, I need to drive away

I find myself stuck in the traffic  
Showin' off signs of an addict  
But my drug of choice is you lovin' my voice  
No one told me it comes with the madness  
Runnin' out all of my patience  
Runnin' up all of my favors  
I'm willin' to bet when I need them instead  
They'll go missin', and that shit is dated

Pressure  
I feel it in my bones, mm  
There's a lot of  
Pressure  
When you're all that someone knows  
Pressure  
I feel it in my bones, mm  
There's a lot of  
Pressure  
When you're all that someone knows

Who knows how the pressure gets?  
Remember when you knew me when  
No one else did?  
I was selfish  
Tryna make my love my life  
Now they all want a piece of me  
But I can't find no peace in me  
After all these victories  
All I want is your love  
I'll become a star (I'll become a star)  
Just to give you the moon (just to give you the moon)  
If a mountain's between us (if a mountain's between us)  
I'm makin' it move (I'm makin' it move)  
I got way too much love for you  
And I'll never lose it, I assure you

Pressure  
I feel it in my bones, mm  
There's a lot of  
Pressure  
When you're all that someone knows  
Pressure  
I feel it in my bones, mm  
There's a lot of  
Pressure  
When you're all that someone knows
