

# Shades

## Abstract

I ain't got no time  
There's too much that's on my mind  
Whole team on my back  
Told my family I'll be fine  
Hypes been hypnotizing  
Pray to God I don't go blind  
Lights are mesmerizing  
Don't get lost within the shine  
Better keep your, your shades on

Better keep your  
Better keep your  
Your blinders on

Better keep your  
Better keep your  
Your shades on

Better keep your  
Better keep your  
Your blinders on

Better keep your  
Better keep your

Keep your talking in check  
I walked my walk till I walked on the jet  
Headed to Europe the come up was set  
The team reign supreme  
Work too hard not to flex  
I make these hits  
Then I'm onto the next  
Tryna roll like them  
Now I roll with the best  
Down to cut ties  
Unless you wanna cut checks  
I ain't got enough time  
To entertain your mess  
Working, working, working  
I deserve it, back in 2011 I was cutting verses  
Saw me as an artist  
They just saw the person  
Now I blur the lines  
Like I write in cursive  
See the youngin's coming up  
Wanna life like mine, last year, two jobs  
I wrote rhymes all night  
If you down to do the work  
Like that you're fine  
But you ain't really that  
You ain't really 'bout it  
Waiting on your come up  
Ain't the way about it  
No if ands about it, no excuses made  
I came out the town, got no time of day  
Now I'm on my way  
These days I get paid

Never sacrificed who I am away  
Navigated oceans for the poets  
While they tryna ride the waves  
I put in motion

I ain't got no time  
There's too much that's on my mind  
Whole team on my back  
Told my family I'll be fine  
Hypes been hypnotizing  
Pray to God I don't go blind  
Lights are mesmerizing  
Don't get lost within the shine  
Better keep your, your shades on

Better keep your  
Better keep your  
Your blinders on

Better keep your  
Better keep your  
Your shades on

Better keep your  
Better keep your  
Your blinders on

Better keep your  
Better keep your

What if Russ gave a nod to Swagy  
What if Tesla called out Edison  
What if it don't matter what I think  
All that matter's what I represent  
But I go and get mine  
I put it all on the line  
This is for all of the times  
They never thought I would shine  
Put on your shades, why  
Without 'em you're blind  
I got balance problems  
I can't leave my work  
Either working  
Or I'm working on my work  
My girl know I'm stressed  
I could use a breath  
But she know that  
I work better when I'm pressed  
Do the numbers  
But I'm unimpressed  
Never happy I need bigger steps  
I need longer flights, I need zero rest  
I need ones and zeros  
Like the matrix's in my checks  
Gauntlet on my neck  
Thanos with the flex  
Marvel at the level that the team has set  
We ain't finished yet  
Far from at the top  
We ain't slowing down  
Came too far to stop  
Neverland views over 80mill, facts  
Can't say shit to me know I'm good, flex

Still the same kid with a head full of dreams  
Still woke but I'm doing what they never could, yeah

I ain't got no time  
There's too much that's on my mind  
Whole team on my back  
Told my family I'll be fine  
Hypes been hypnotizing  
Pray to God I don't go blind  
Lights are mesmerizing  
Don't get lost within the shine  
Better keep your, your shades on

Better keep your  
Better keep your  
Your blinders on

Better keep your  
Better keep your  
Your shades on

Better keep your  
Better keep your  
Your blinders on

Better keep your  
Better keep your
