

# Solving My Own Murder

## Abstract

I wasted all my time  
While I hypothesized on why you're cold as ice (yeah, yeah)  
Those nights spent home alone  
I guess I shoulda known that you were full of lies (yeah, yeah)  
You told me not to think too deep  
Don't overthink, just go to sleep  
I know what I felt in my gut  
So here's what I dug up

Playing detective, the pieces connected  
You were the mastermind  
Solving my own murder, murder  
Solving my own murder, murder  
Solving my own  
Murder in the first degree  
You'll serve yourself the penalty  
Karma will not forgive this  
Welcome to your lifetime sentence

Pay off the jury  
You still live with your lies  
May all those before me  
Find some justice tonight  
I'm not the first to get your worst  
I hope you're cursed from here on out  
'Cause in my death, I brought to light  
The truth inside my doubt

Playing detective, the pieces connected  
You were the mastermind  
Solving my own murder, murder  
Solving my own murder, murder  
Solving my own  
Murder in the first degree  
You'll serve yourself the penalty  
Karma will not forgive this  
Welcome to your lifetime sentence

Don't need your testimony  
I've got all the evidence right here  
You'll need a better story  
Than that alibi  
Don't need your testimony  
I've got all the evidence right here  
You'll need a better story  
Than that alibi  
Don't need your testimony  
I've got all the evidence right here  
You'll need a better story  
Than that alibi (alibi)

Murder  
Murder-er  
Murder  
Murder-er

Solving my own murder, murder

Solving my own murder, murder  
Solving my own  
Murder in the first degree  
You'll serve yourself the penalty  
Karma will not forgive this  
Welcome to your lifetime sentence
