

# Together

## Abstract

I don't mean to scare you, been out of my mind  
Woke up on the floor, least I wasn't outside  
If you wanna go, I can make you be mine  
Tryna get my shit together but I haven't found time  
Blame it on the Jack, I was with him all night  
Blame it on the loss I knew most of my life  
Blame it on the love that I tried to make right  
I know I'm a lost soul but I'm gonna be fine

I'm broken, you noticed  
Tryna thaw this heart you're holding (Holding)  
You're broken (Broken), I noticed (Noticed)  
Know a place we can both stay frozen

Ooh, what an icebreaker  
I'm terrible, how 'bout you?  
Ooh, I could be your savior  
But I ain't really in that mood

A dangerous mixture, I'm well aware  
Took a flame to propane, we didn't care  
Broken, the only thing we ever shared  
Late night thoughts, I'm wondering what I'm doing here  
They say misery loves a little company  
My type honestly loves to bring it out of me  
Gaslights starting to weigh within a fantasy  
Shoulda known better remembering what you said to me

I'm broken, you noticed  
Tryna thaw this heart you're holding (Holding)  
You're broken (Broken), I noticed (Noticed)  
Know a place we can both stay frozen

Ooh, what an icebreaker  
I'm terrible, how 'bout you?  
Ooh, I could be your savior  
But I ain't really in that mood

I'm broken (Yeah), you're broken (Yeah)  
Know a place we can both stay frozen (Yeah)  
I'm broken (Yeah), you're broken (Yeah)  
Know a place we can both stay frozen

I'm broken, you're broken  
Know a place we can both stay frozen  
I'm broken, you're broken  
Know a place we can both stay frozen  
That's a wrap
