

When You're Young

Abstract

We were livin' under small town lights
Doin' whatever that we felt right
Livin' bigger than the money we had
Didn't know that we were livin' too fast
We were lookin' at our drinks half glass
We would drink them just to have half chats
Only talkin' with the truth half passed
Shoulda known at the time that we wouldn't last

Now we don't chat, no, we don't talk (no more, more, more)
And now I laugh thinkin' 'bout my younger thoughts

Thinkin' we were in love
Drank 'till we were too drunk
Thought that we had it planned out
Thought we'd never grow up
Thought the world was against me
I still think that it was
But now I know that's how it goes, havin' big dreams when you're young

Now I'm livin' under bigtime lights
Doin' whatever that I feel like
Livin' smaller than the money I have
Signed up for a life I'm livin' way too fast
I been lookin' at my drinks half full
But I drink 'em just to keep my cool
Only talkin' with the truth, that's rule
Shoulda known at the time, I was such a fool

Now we don't chat, no, we don't talk (no more, more, more)
And now I laugh thinkin' 'bout my younger thoughts

Thinkin' we were in love
Drank till we were too drunk
Thought that we had it planned out
Thought we'd never grow up
Thought the world was against me
I still think that it was
But now I know that's how it goes, havin' big dreams when you're young

That's how it goes (big dreams when you're young)
That's how it goes (big dreams when you're young)
That's how it goes
Havin' big dreams when you're young
That's how it goes (big dreams when you're young)
That's how it goes (big dreams when you're young)
That's how it goes
Havin' big dreams when you're young
Havin' big dreams when you're you-ou-oung
