

Skrying in the Spirit Vision

Absu

East

Invoking: the breaking forth of the light

Instruments: forms of the coarse flames

Aeons of a bornless beyond:

Listen to the voice of Angle!

Devotion

Ever-burning lamps

West

Traveling: the Radix of vibration

Projections: in gale of the Ninth

Stirs of the invisible

Feel four-hundred fifty six winds!

Metatron

The wisdom of the breath

North

Emerging: advent of the visible

Conjectures: adventures into the chasm

Limpid with the brilliance below

Drenched and sodden: inundating

Quadrangle

An excess: abundance

Servants of thunder, they all deliver

Pulling together, all subquadrants fail

South (Dominated)

The speech in silence sounds the Third Angle

Drawn into naught, the points are now quashed

Hath passed and pure gold, the Lion of the Light appears before the faces of
Aethyrs

Chorus

Folk of fear will drive

Astral planes toward the fade of age

Time is thronged by time
