

Stop the Fall

Absurd Minds

Up and down highs and lows
Up and down highs and lows
Climbing mountains to take a cave
Climbing mountains to take a cave
Most of activities are destructive
They can do nothing good
Most of activities are destructive
They can do nothing good

Don't you see that it's your weary search
For happiness that makes you feel so down
That makes you feel so sad
Try the other way, keep empty
Just turn away from all
That don't prize the mind
And you can stop the fall

Don't you see that it's your weary search
For happiness that makes you feel so down
That makes you feel so sad
Try the other way, keep empty
Just turn away from all
That don't prize the mind
And you can stop the fall

Neither learning nor action can really help
Can really help
Neither learning nor action can really help
Just like a wheel turns, broken axle, I'm moving
I've got the center
Most of activities are destructive
They can do nothing good
Most of activities are destructive
They can do nothing good

Don't you see that it's your weary search
For happiness that makes you feel so down
That makes you feel so sad
Try the other way, keep empty
Just turn away from all
That don't prize the mind
And you can stop the fall
