

## Clickbait Mermaid

Absynthe Minded

You want to know something  
Even if it turns out to be false  
We've been telling stories  
For as long as we can remember

It's coming at you fast  
You're clicking through to the next escape

What do you want to know?  
What are you carrying?  
You're thinking pictures, you're thinking words  
Let it in, continue to unfold

Even at the time  
I remember thinking that you'll never find  
A good perspective

As the world turns round  
You're clicking through to the next escape

What do you want to know?  
What are you carrying?  
You're thinking pictures, you're thinking words  
Let it in, continue to unfold

They found her in a ditch  
Half woman, half fish  
They found her in a ditch  
Half woman, half fish  
They found her in a ditch  
Half woman, half fish
