

## Black Chakra

Abused Majesty

Enlightenment in black chakra  
Shows illusory nature  
Of self and the universe

When you take a step back  
Can you find the three hidden ones?

With the blessing of the goddess Kali  
With a burning eye

On the other side of the black hole  
You will find infinite light

Unity is equal to extinction  
Final duality offers life  
In the energy of a burning eye  
One step separates you from eternity  
Anastomosis with energy within your reach  
You can stay here forever  
Or made a final decision  
You have completed the last step  
Step outside the universe

Enlightenment in black chakra  
Shows illusory nature  
Of self and the universe
