

This is the age of genocide  
Of ignorance and self-serving bliss  
No cure for what we are inside  
90-day profits have made us sick

Humanity's inept  
Cleanse the world again  
Humanity's inept

The time has come to fulfill our life's death sentence  
We chose our fate now there's nothing we can do  
Our minor good couldn't justify our existence  
Empires fade and it's time that we did too  
The time has come to fulfill our life's death sentence  
We've realized this harsh and painful truth of life  
There are no real innocent and there is no hope

The time has come to fulfill our life's death sentence  
End your quest for the preservation of your youth  
We can't redeem the thieves and non-repentant  
Our selfishness a universal truth of life  
We created our genocide  
Nowhere to run and hide  
Our poison has a cure  
An end that's absolute

Our lives flash before our eyes  
A speck in the fabric of eternity  
The mass extinction prophesied  
Now comes to be

Humanity's inept  
Cleanse the world again  
Humanity's inept
