

Angel

Abz

Send mean angel let her be someone who loves me just for me just the way i am y'all i dont want to be lonely i'm feeling
For someone and lately ive been thinking if your the one i'm seeing in my dreams

Take your time decide i could do with you in my life what i got to do tell me if im getting through to you how can i make you
See? everything you want in me with you by my side i'll be anything i want to be

Somebody please help me find her the girl took my heart and touched my soul i can't let her go baby can't you see ain't no sunshine
When you're gone that's why im writing you this song i'm trying to make you feel

Take your time decide i could do with you in my life what i got to do tell me if im getting through to you how can i make you
See? everything you want in me with you by my side i'll be anything i want to be
