

Emission Control

AC/DC

Here's my emission
To see you wild
You are a fragrance honey
Remember , make a sound

Give it up
Don't go around
She comes from the sky

Come in emission control
Emission control
Come in emission control
Emission control
It's good for the soul, yeah
Come in emission

It loves it when it comes alive
She takes my mind
Like a lion with a strike
With a strike

You got to reach it alright
Reach it
She comes from the sky

Come in emission control
Emission control
Come in emission control
Emission control
It's good for the soul, yeah
Come in emission

Give it up
Give it up
Give it up
Give it up
Give it up
Give it up
