

# First Blood

AC/DC

Got a screaming feeling, need a little loving healing  
Want some of that stuff, cause I like a hot touch  
Wanna little squeezing, just a touch and teasing  
Maybe wrong, maybe right, but I like it every night

Come on baby, down my way  
Were gonna make it, night and day

I want first blood, a look in the eye  
Thirst blood, a need in disguise  
Bad dog come, back for more  
First blood, first blood

Some like it hot, some like it not so hot  
Cause I like a touch, and I want it so much  
Come on baby, down my way  
Were gonna make it every night and day

First blood, a look in the eye  
Thirst blood, a need in disguise  
Bad dog come back for more  
First blood, first blood

I want first blood, a look in the eye  
Thirst blood, a need in disguise  
Bad dog come back for more  
First blood, first blood

I want first blood, a look in the eye  
Thirst blood, a need in disguise  
Bad dog come back for more  
First blood

You know I want a first blood  
Some like it hot  
First blood, all right hot shot  
Bad dog, come back for more  
I want first blood
