

# Realize

AC/DC

The moment you realize  
Those moments just pass you by  
Gonna take you to paradise  
Move it  
Make it, prove it  
Break it out  
Break it down  
Feel the chills, feel the chills  
Moving down your spine

Well, hear me calling  
Realize  
Make you realize

I got the power to hypnotize  
Make a play, mesmerize  
Feel the chills up and down your spine  
I'm gonna make you fly

Your eyes playing trick on you  
Your mind will seek the truth  
You know you're gonna make it through

I said, move it  
Make it, prove it  
Shake it out  
Shake it down  
Feel the chills, feel the chills  
Moving down your spine

Well, hear me calling  
Realize, hey, yeah  
Gonna make you realize

I got the power to electrify  
Make a play to satisfy  
Feel the chill up and down your spine  
I'm gonna make you fly  
Fly, fly

Well, hear me calling  
Realize  
Gonna make you realize

I got the power to hypnotize  
Make a play, mesmerize  
Feel the chills up and down your spine  
I'm gonna make you fly
