

# Show Business

AC/DC

You learn to sing  
You learn to play  
Why don't the businessmen  
Ever learn to pay

That's show business (Show business)  
Show business (Show business)  
Show business  
That's the way it goes

You play in halls  
Play in bars  
You're climbin' walls  
Chasin' stars

That's show business (Show business)  
Show business (Show business)  
Show business  
That's the way it goes

You pay the man  
You pay your dues  
When it's all gone, ooh  
You sing the blues

Show business (Show business)  
Show business (Show business)  
Show business  
That's the way it goes

You wanna roll  
You wanna rock  
You find it hard  
If your guitar's in hock

That's show business (Show business)  
Show business (Show business)  
Show business  
That's the way it goes

You're smoking butts  
They smoke cigars  
You're drown in debt  
They drown in bars

That's show business (Show business)  
Show business (Show business)  
Show business  
That's the way it goes

You pull a chick  
Take her home  
No use, man  
You're worn out to the bone

That's show business (Show business)  
Show business (Show business)

Show business  
That's the way it goes

That's show business, show business  
That's show business, show business, show business  
That's the way it goes  
Know what I mean
