

## Love is the Power

Acappella

I know this is an evil world  
That we all live in  
Full of pain, strife and struggles  
And at times we hurt way, way down deep within  
Jesus shed his blood for you and me  
On this journey He's by my side  
He has set a sinner like me free  
Love is the power that makes everything all right

Forget about your heartaches and troubles  
Leave them all behind  
Let your hope, joy and love  
This only in Jesus we can find  
We are loved so much  
What peace living in His light  
What a wonderful Savior  
Love is the power that makes everything all right

I can't help but love Him  
Look at what He has done  
On the cross, shed His blood and died  
Arose with power to save everyone

I can't help but love Him  
He's been so good in my life  
What a wonderful Savior  
Love is the power that makes everything all right

You know that love, love, love  
Makes everything all right, all right  
You know that love, love, love

I can't help but love Him  
He's been so good in my life  
What a wonderful Savior  
Love is the power that makes everything all right  
Love, love, love makes everything all right, all right  
I know that love, love, love makes everything all right  
When I'm feeling down, I have a Savior that I can count on  
I know that Jesus, he's the one, he's the one for me... and you  
Don't you know that love is the power, love is the power  
All you got to do is love  
Love, love, love (fade)
