

# Walking That Line

Acappella

I will hold up my head  
Proudly march where I am lead  
Now that I see the way  
I'm walking it day by day  
I will not fear this road  
Gladly I'll bear this load  
And I will not think twice  
Because I am walking with Christ

Chorus:

I'm walking that line - never look back  
I'm walking that line - I'm on the right track  
I'm never alone - He's holding my hand  
And everything's fine cause I'm walking that line  
To the promised land

Why don't you walk with me  
Travel eternity  
Staying within His light  
Keeping the end in sight  
We will not go astray  
Together His will obey  
And we will win the fight  
We are walking with Christ

Repeat Chorus

Bridge:

Though my feet may often stumble  
I will not be down for long  
He has called me to commitment  
And my resolutions strong  
So when satan clouds the vision  
And his poison darts are thrown  
I will look back at these challenges  
Just to see how much I've grown

Repeat Chorus

I'm walking that line - never look back (Don't look back now, keep your eyes on the Lord)  
I'm walking that line - on the right track (Stay on track now)  
I'm never alone - He's holding my hand (Let Him take ahold of your hand now)  
And everything's fine cause I'm walking that line  
To the promised land

And everything's fine cause I'm walking that line  
I'm walking that line (walking that line)
