

## Diving Into Sin

Accept

You're tired of conforming, the rules just tie you down  
Cut loose and tear up this town  
Flip off the normal, breaking from the chains  
The routine just drives you insane

There's smoke within your eyesight, mysteries untold  
Tonight you'll break free from the mold  
Your heart is set on fire as you delve into the night  
And now's the time to set things right

Let's go diving  
Diving into sin  
Bring chaos and insanity  
Diving  
Diving into sin  
Let the sin begin

You're sick of the regimen, the ropes that bind you tight  
A renegade just looking for a fight  
Defile the system, shatter every link  
This program has pushed you to the brink

Now you're diving  
Diving into sin  
You're diving into anarchy  
Diving  
Diving into sin  
Let the sin begin

You're finally letting go  
No more putting on a show  
You're finally letting go

Now let's go diving  
Diving into sin  
Diving into anarchy  
Diving  
Diving into sin  
Let the sin begin

And now the sin begins
