

Mind Games

Accept

Chasing shadows in the night, something's hunting me down
Dogs and demons fuel the fright, no escape to be found
I'm searching for peace of mind, nothing but chaos and fear
False reality undefined, everything seems so unclear

Something's coming to get you, the walls are closing in
Someone's starting to hunt you, a fear that grows within

Mind games, chasing you down at midnight
Mind games, nightmares alive in your head

Twisted notions that make no sense, a dreamworld full of lies
Illusionary circumstance, filled with endless surprise

Now they're coming to get you, paralyzed, you can not run
Recurring dreams that haunt you, the nightmare's just begun

Mind games, chasing you down at midnight
Mind games, visions alive in your head
These are mind games, deception, and confusion
Mind games, there's just no way out

Sometimes, I think I'm going crazy, it seems so unreal
Sometimes, it's just a nightmare, am I losing my mind?

Something's coming to get you
Recurring dreams that haunt you

Mind games, chasing you down at midnight
Mind games, nightmares alive in your head
These are mind games, deception, and confusion
Mind games, there's just no way out
