

No Ones Master

Accept

The media's controlling the masses
Stoking our anger and fear
Further dividing the classes
Serving the richest's careers

Their mantra is lies and deception
When honesty's all that I crave
I decline and there'll be no exceptions
I am no one's master
No one's slave

No one's slave

Living in fear ain't worth living
Wasting your life is the crime
The reaper will be unforgiving
Wake up, while you're still in your prime

The guide of my life is my conscience
My way is the path that I pave
I treat, how I want to be treated
I am no one's master
No one's slave

No one's slave

I won't rule
I won't bow
I won't sink my eyes to the ground
I won't steal
I won't kneel
I won't bend my knee to the crowned

I pledge an oath to myself and to life
I'm not afraid of the sword or the knife

The guide of my life is my conscience
My way is the path that I pave
Equality's all that I'm after
I am no one's master
No one's slave

No one's slave
No one's master
I am no one's
No one's slave
