Stone Evil

They terrorize and tyrannize democracies Their narrow minds still nothing learned from history The seeds of hate acquired from their ancestry Spreading like a cancer in societies

They've got the poison inside Rivers of pesticide Skin-headed minions they're deaf, dumb and blind Machind-like in body - robotic in mind

Stone evil - inherited sin Stone evil - infected from within

They can't leave it they can't break the spell Under orders to obey It was meant to last a thousand years It took the world into dismay

Stone evil - stone evil

If you're gonna throw the torch at us Don't expect to not get burned It's time to stand - and fight the right This is the lesson we have learned

They're marching to a different beat and glorify The darkest times when innocent were crucified They paralize and sterilize the masses' minds They desecrate man's dignity - desensitize

They've got the poison inside Rivers of pesticide Skin-headed minions - they're deaf, dumb and blind Machine-like in body - robotic in mind - evil

Stone evil - inherited sin Stone evil - infected from within Stone evil - inherited sin
