

Straight Up Jack

Accept

No sugar, no spice
Keep the soda, hold the ice
Vodka neat, coffee black
Steady pour, don't hold back
No

A Long Island, a tall glass
Make mine a double and make it fast
Full shot of whisky, twice the rum
Mas tequila, now keep 'em coming

No training wheels, keep the salt and lime
Just bring it to me right on time

Give it to me straight up Jack, straight up Jack
Don't gimme no flack
Just give it to me straight up Jack

Tell your story, make it quick
No sugar coating, don't make me sick
Go on and tell it like it is
Without the icing and no twist

Get to the point and give it a push
Don't beat around the bush

Give it to me straight up Jack, straight up Jack
I won't cut you no slack
Just give it to me, just give it to me straight up Jack

Full strength, get to the truth
Gimme that hundred proof

Give it to me straight up Jack, straight up Jack
Gimme that stack
Just give it to me, just give it to me straight up Jack
Straight up Jack, now show me that rack
Just give it to me, just give it to me straight up Jack
