

# Thunder and Lightning

Accept

Roll on!  
I feel the things growing worse  
My head's playing tricks  
I know it's going, going to my brain

Get the touch  
Before the feeling gets too much  
Running through my veins  
Flying, lying, crying all night long

Roll on  
Never stop - keep on moving,  
Feel my mind goes on losing  
Twilight zone is getting dark  
Lighted by the sparks

Get the touch  
Can't stand the pain  
It's too much, much too much  
He's the winner, he's the sinner,  
The man beyond the good

Thunder and lightning, take care of this man  
Thunder and lightning, stand it if you can  
Squeezing and teasing, drugs you deep inside  
Thunder and lightning, keep it in your mind

He shows his claim  
Claims are fact to me  
His mirrored shield  
Ah, if shouldn't be

Turn away  
Before you turn to stone  
He's a blaze - a chase - the burning flame inside

Thunder and lightning - take care of this man  
Thunder and lightning - stand it if you can  
Squeezing and teasing - drugs you deep inside  
Thunder and lightning - keep it in your mind
