```
Heroes - keep dying
Nations - dividing
Principles - they're gone
It's war
```

Wallstreet - buy in politics Jesus - up for sale Do anything - for money I'm a whore

What else - what's in it for me What else - what's in it for me What else

Deadlines - headlines
Make me - the biggest star
I don't need personality
'cause it's war

I'm greedy - I'm deadly
Don't give a fuck anymore
Anything for money
I'm a whore
