

Zombie Apocalypse

Accept

They're walking by day, they stumble by night
Wandering blindly, with no end in sight
Mass communication, hand to hand
A new epidemic has control of this land

They're coming at you one by one
We've got to kill them all
They're coming for us one by one
Disconnect them all

Society is now deceased
Technology has unleashed the beast

Help me!
It's a Zombie Apocalypse
Save me
From the Zombie Apocalypse

Charging blindly forward, no words being said
Lifeless batteries of the living dead
In search of power, endlessly
For one more hour of mindless ecstasy

They're coming for us one by one
We've got to kill them all
We've got to kill them, one by one
Disconnect them all

Devoid of souls, their lips are sealed
Robots at the grinding wheel

Help me!
It's a Zombie Apocalypse
Save me
From the Zombie Apocalypse

Cryptic messages, from beyond
They roam the land, like the Devil's spawn

On their own, just empty shells
A useless herd of dying cells

Help me!
It's a Zombie Apocalypse
Save me
From the Zombie Apocalypse
Help me!
It's a Zombie Apocalypse
Please, won't you save me
From the Zombie Apocalypse!
