

Cold Air

Acceptance

What it's like to photograph, kneel down
Take in all the scenery, a face within the crowd
Can you see the end if this, it's closing in
It's closing in

We don't belong here
We don't belong
Calling out, calling out, safe and sound
We can't survive here
We can't survive
Calling out, calling out

Hey, don't it feel like the frontlines?
And you say, what you mean when you look at me
Wait for a time when I'm listening
It's closing in, it's closing in

We don't belong here
We don't belong
Calling out, calling out, safe and sound
We can't survive here
We can't survive
Calling out, calling out

Hey, don't it feel like the frontlines?
Say what you mean when you look at me
Wait for a time when I'm listening
Don't it feel like the frontlines?
Don't it feel like the frontlines?

We don't belong here
We don't belong
Calling out, calling out
We can't survive here
We can't survive
Calling out, calling out

We don't belong here
We don't belong
Calling out, calling out, safe and sound
We can't survive here
We can't survive
Calling out, calling out
Don't it feel like the frontlines?...
