

## Golden

## Acceptance

We're all just chemicals  
We're all just chemicals  
You can lose yourself in me  
And I'll feel it when you breathe  
We're all just physical  
And so subliminal  
I can lose myself in you  
And you pull, you pull me through

So I'm told, we grow old and move on, and move on  
So I'm told, to fear gold, and shiver, shiver  
As you hold me close and take me through the night  
The two of us are bound to get it right  
We'll get it right

And we're all just chemicals  
And we're all just chemicals  
You can lose yourself in me  
And I'll feel it when you breathe  
We're all just physical  
And you're so subliminal  
And I lose myself in you  
And you pull, you pull me through

Take my eyes sharing lies with my head, with my head  
While I'm told, to fear gold, shiver, shiver  
As you hold me close and take me through the night  
The two of us are bound to get it right  
We'll get it right

And we're all just chemicals  
We're all just chemicals  
Lose myself

It gets better, better than this  
It gets better, better than this  
I'm golden, golden  
It gets better, better than this  
It gets better, better than this  
I'm golden, golden  
It gets better, better than this  
It gets better, better than this  
I'm golden, golden  
It gets better, better than this  
It gets better, better than this  
I'm golden, golden

It gets better, better than this  
It gets better, better than this  
I'm golden, golden
